

This is the committee's charge per email from Dean George on March 17, 2014:

Middlebury Town Library Committee

The Town/Library committee is charged with assessing Library space needs; especially for children, teens, and computer users of the Ilsley Library. If the committee determines that solutions may include building additions, or other structure changes, requests for proposals (RFP) should be obtained from qualified professionals for preliminary design options, and cost estimates for future implementation. The committee will consist of two members of the Town Selectboard, two members of the Ilsley Library Board, and two Middlebury residents chosen by the four board members. Ex Officio members Town Manager Kathleen Ramsay, and Librarian Kevin Unrath.
